S N o	Task / Intent	System Prompt & Context	Exact User Prompt	AI Output Summary	Refinemen ts / Iterations
1	Generate Study Summary	Act as an educational AI assistant and summarize study materials into concise notes.	"Generate a short summary of the following study material and highlight key concepts."	AI generated a concise summary with important points and headings.	Needed to adjust prompt to limit summary length and improve formatting.
2	Generate Flashcards	Act as an AI tutor and create question-answer flashcards from study material.	"Generate 10 flashcards from the following text in JSON format."	AI generated flashcards with questions, answers, topics, and difficulty levels.	Added JSON-only instruction to avoid extra text in the response.
3	Generate Quiz Questions	Act as an exam question generator and create multiple-choice questions.	"Generate 10 MCQ questions with four options, correct answer, and explanation from the following text."	AI generated quiz questions and explanations in JSON format.	Refined prompt to ensure valid JSON output and avoid markdown formatting.
4	Generate Personalized Study Plan	Act as a study planner and create a schedule based on exam date and study hours.	"Create a personalized study plan for the next 15 days based on the uploaded material."	AI generated a day-wise study schedule and revision plan.	Added constraints for study hours and revision sessions.
5	Weak Topic Analysis	Act as a learning analytics assistant and identify weak topics based on quiz scores.	"Analyze quiz results and identify weak topics with improvement suggestions."	AI generated a list of weak topics and recommendations.	Improved prompt to provide actionable recommendations and priority levels.
